

**COMMISSIONER LEA MÁRQUEZ PETERSON'S *REVISED* AMENDMENT NO. 1**TIME/DATE PREPARED: December 11, 2020COMPANY: Arizona Public Service Co. (2020 REST Plan)AGENDA ITEM NO.:     DOCKET NO.: E-01345A-19-0148OPEN MEETING DATE: December 22, 2020

---

**Purpose:** This amendment clarifies that the aggregation tariff Arizona Public Service Company must file pursuant to Decision No. 77762 can permit the aggregation of all distributed demand-side resources, and not just distributed energy storage systems. It also clarifies that the aggregation tariff Arizona Public Service Company files pursuant to Decision No. 77762 must list all of the operating characteristics and corresponding values that each system will be compensated for.

The amendment also includes the three verbal amendments Commissioner Márquez Peterson offered on December 9, 2020, during the Commission's Regular Open Meeting.

**Page 2, Line 9****INSERT new Findings of Fact:**

In addition, to the requirements of the tariff as described in Decision No. 77762, APS should also permit the aggregation of distributed demand-side resources, as defined by Decision No. 77829, and provide compensation for the value each distributed demand-side resource provides, including, but not limited to, compensation for capacity, demand reduction, load shifting, locational value, voltage support, ancillary and grid services, and any other operating characteristic the Commission may deem appropriate.

The tariff APS is required to file, shall list each operating characteristic and corresponding value the tariff will provide compensation for. Additionally, such tariff may list additional operating characteristics the Commission has not yet deemed appropriate, understanding that the Commission's order approving or denying the tariff will serve as the Commission's approval or denial of the appropriateness of the additional characteristics and their corresponding values.

**Page 3, Line 3****REPLACE** "February 2, 2021," **with** "April 1, 2021,"**Page 3, Line 5****INSERT new Ordering Paragraphs:**

IT IS FURTHER ORDERED that the tariff Arizona Public Service Company files pursuant to Decision No. 77762 may, and should, permit the aggregation of distributed

demand-side resources, as defined by Decision No. 77829, and provide compensation for the value each distributed demand-side resource provides, including, but not limited to, compensation for capacity, demand reduction, load shifting, locational value, voltage support, ancillary and grid services, and any other operating characteristic the Commission may deem appropriate.

IT IS FURTHER ORDERED that the tariff Arizona Public Service Company files pursuant to Decision No. 77762 shall list each operating characteristic and corresponding value the tariff will provide compensation for.

IT IS FURTHER ORDERED that the tariff Arizona Public Service Company files pursuant to Decision No. 77762 may list additional operating characteristics the Commission has not yet deemed appropriate, understanding that the Commission's order approving or denying the tariff will serve as the Commission's approval or denial of the appropriateness of the additional characteristics and their corresponding values.

IT IS FURTHER ORDERED that, to prevent any delay in the Commission's review and approval of the company's upcoming 2021 Demand Side Management Plan, Arizona Public Service Company shall not file its tariff permitting the aggregation of distributed demand-side resources as a supplement to the Company's upcoming 2021 Demand Side Management Plan, but rather Arizona Public Service Company shall file the tariff in a new application and docket.
